

General informations

Dear Competitors,

Welcome to the event! We are excited to have you join us for what promises to be an exciting competition.

Here are a few important details to ensure everything runs smoothly:

- **Directional Retrieve (Level 3):** White brushes will mark the 10-meter distance for the directional retrieve exercise. There will be a marker indicating the direction where the middle retrieve item will be placed. Blue boxes with tape and cones with white rings will also guide you.
- **Training Sessions:** A schedule for training on Friday, starting at 9:00 AM, is available at the registration desk. Each participant is allocated 7 minutes for practice. Please make sure to adhere strictly to your time slot.
- **Random Draws:** The drawing of sides for the directional retrieve and hurdles will also take place during registration.
- **Documents and Equipment:** You can access the ring plans, equipment lists, and general information in the "Documents" section in CANIVA.

Additionally, steward announcements can be made in English if needed. Please request this at the registration desk.

We hope you have a wonderful experience, and we are here to assist you with any questions or needs throughout the event.

Best of luck, and enjoy the competition!

Warm regards,
The Event Team
